# ABOUT THE COMPANY

## WHO WE ARE

Well-known to be vastly experienced, backed by a group of determined and committed people, Mecacom Technologies Sdn. Bhd. has established itself to be a key player in the Information Technology I (ICT) sector in the country, particularly covering Northern Region of Malaysia.

Mecacom Technologies Sdn. Bhd. is one of the major entity that contributed towards the development of the ICT sector in the Northern Corridor (Perlis, Kedah, Penang and Perak), ever since its establishment in 1998, then known as MCTech Computer Centre.

## OUR MISSION

To keep offering and supporting our customers with reliable technologies and solutions to help them stay at the competitive edge of their businesses.

## OUR VISION

To become a strategic enabler to our customer's business infrastructure. We will continue to map our experiences and skills with customer business demands.

# OUR TIMELINE

## **MCTech Computer Center was established**

MCTech Computer Center was formed as a registered sole proprietor company. In the early years, the company's major business activities were to provide sales and services of computer hardware and software in the city.

**1998**

## **New Operation Office**

As our services expanded, so was our need to move to a better facility to perform our work and provide much efficient services

## **Mecacom Technologies Sdn. Bhd. was incorporated**

Mecacom Technologies came into existence in 2007 and all operations were migrated from MCTech. A wholly owned Bumiputera Company with MOF Certification and Bumiputera Status, Mecacom is expected to continue the rapid business progress inherited from MCTech, with wider geographical coverage and providing comprehensive solutions to our clients.

**2000**

**2007**

## **Penang Branch Office**

Mecacom Technologies Sdn. Bhd. Penang Office began its operations at Bandar Baru Perda.

**2010**

## **Perak Branch Office**

Mecacom Technologies Sdn. Bhd. Perak Office was established to handle and manage project and warehouse operations

**2011**

## **KL Corporate Office**

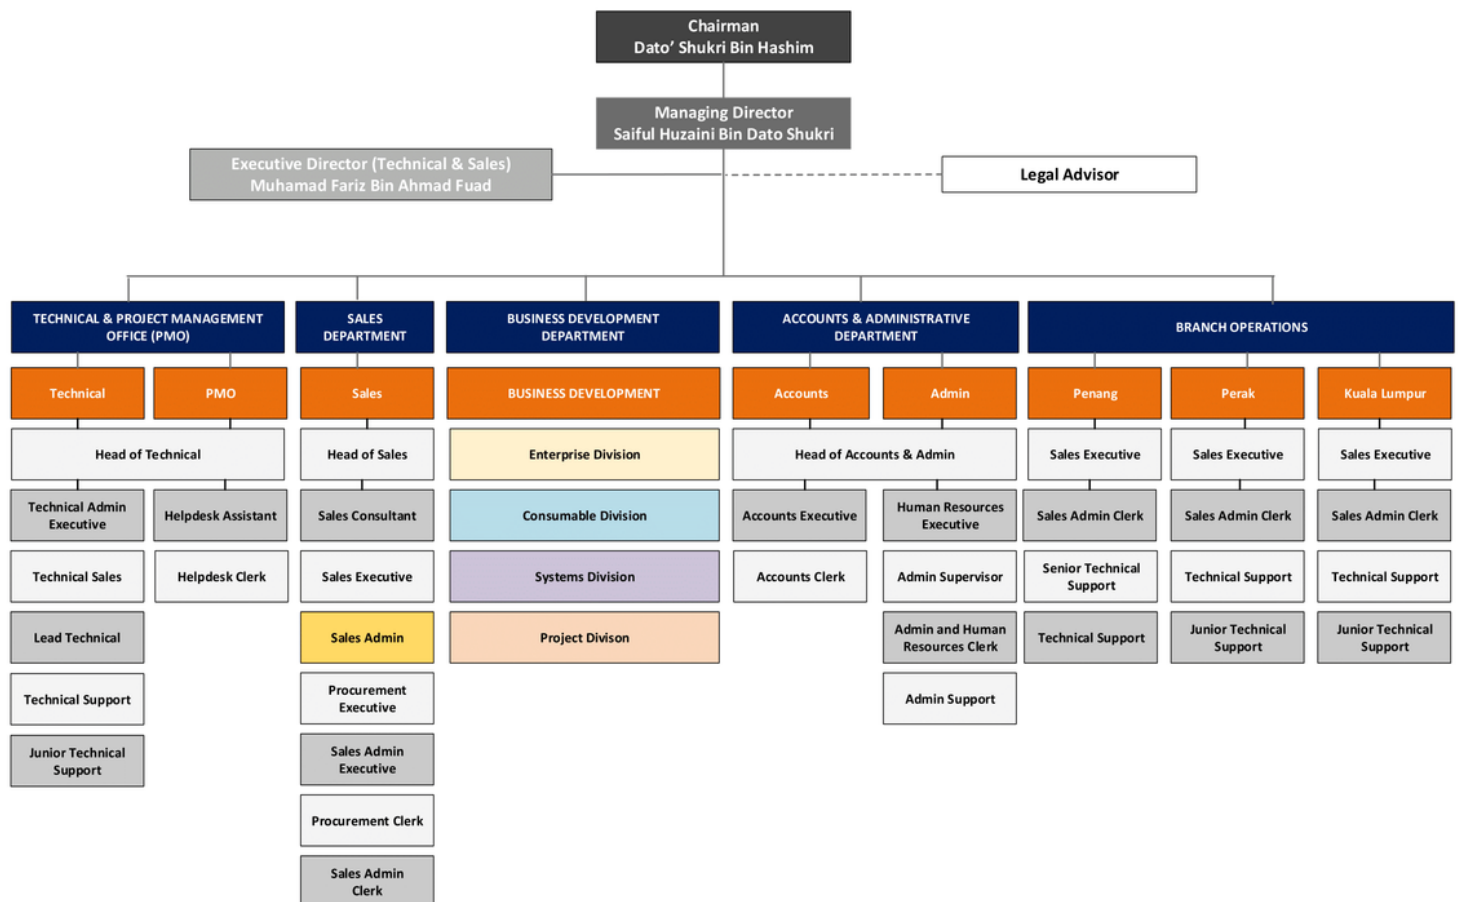

Mecacom Technologies Sdn. Bhd.'s Corporate Relations Office was formed in Selangor.

**2012**

# OUR SOLUTIONS

## Cloud Computing

Our cloud offerings are solidly backed by Amazon Web Services, a secure cloud services platform, offering compute power, database storage, content delivery and other functionality to help businesses scale and grow.

## Project Management

Specializes in managing deployment and integration of IT equipment in large scales for projects anywhere in Peninsular Malaysia, Sabah and Sarawak.

## Equipment Leasing

Giving you the opportunity to get the technology that you need right now, without having to worry about cash flow.

## Sales & Services

Mecacom provide sales and most importantly, promptly services to our customers. We do a wide range of hardware offerings and collaborate in many ways with many principals, ensuring our customers do get the right attention they need.

## Managed Services

Managing and protecting your critical IT assets requires the ability to effectively bring together the right people, process, and technology. This typically translates to the need to hire, manage, and maintain a labor force to address those specific solutions and process.

## Structured Networking

A properly designed and installed structure cabling system provides a cabling infrastructure that delivers predictable performance.

## Websites & Apps

Our full-stack development team work collaboratively to produce exceptional code.

# OUR BUSINESS PARTNER

We partnered with the best, so that we could offer our clients more solution options. We are able to customize your IT needs to suit your business operations. As technology itself never sleeps, so will we. We aim to upgrade ourselves, our partnerships, from time to time to go along side current technological level.
